FISCAL ANALYSIS

Assumptions:

1. HB 315 is one of several bills seeking to add to the duties of interim committees. The fiscal note for each bill is prepared based on the effect of the individual bill. However, when viewed as a package, the cumulative effect of passage of more than one bill will require additional analysis and may require additional resources.
2. Each interim committee is charged with the responsibility to review administrative rules and proposed legislation within its jurisdiction, monitor other activity or assigned agencies, and conduct assigned interim studies.
3. Section 6 of this bill requires interim committees to identify, review, and report on programs that implement federal statutes. The review must include agencies' compliance with the requirements of the Federal Mandates Act. The workload increase related to this bill would be greater for those committees that oversee agencies subject to a large number of federal mandates.

4. It is anticipated that those committees with increased workloads, if also assigned one or more study resolutions, may be required to seek additional funding during the interim or compromise the extent to which they fulfill other duties. The Legislative Services Division will evaluate resource needs after completing the first interim which includes the requirements of this bill
5. For the purposes of this fiscal note, it is assumed that committees could perform the work within existing resources.
